Why Will Fabrifoam® Products Work For You?

Because patients will actually use them!

We have specifically designed our patented products for maximum comfort to assure high patient compliance. Fabrifoam products provide Medical Professionals, coaches and trainers with a wide assortment of superior compression/support therapy tools to treat discomfort related to soft tissue for patients of all ages.

Excellent For Treating and Preventing...

Plantar Fasciitis

PSC™

- Totally new concept for treating chronic heel pain, excessive pronation, heel spurs syndrome and shin splints.
- Reduces the force of heel strike and bio-mechanically moves the foot into a normal position.

Inversion and Eversion Injuries

AnkleWrap™

- A superior replacement to traditional cloth wraps, comfortably accommodates three heel locks and figure eights.
- Compression and support helps eliminate pain and discomfort, as well as facilitates rehabilitation.

Illiotibial Band Syndrome (ITBS)

PattStrap™

- Used for treatment of ITBS by the U.S. Naval Academy.
- An effective treatment alternative for patella tendonitis, Osgood Schlatter's Disease, Chondromalacia and other knee ailments.

Wrist Strains

WristWrap™

- Perfect for hand support or as a thumb spica.
- Ideal for football linemen, bowlers, golfers, boxers, weightlifters and for any work, or exercise where extra wrist support is needed.

SuperWrap™

- An exciting breakthrough in multidirectional adjustable compression and support therapy.
- Perfect for hamstrings, hip spicas, chest wraps, and shoulder abductions or any area where traditional elastic bandages are used.

See Page XX for additional product information.

Fabrifoam® is an extraordinary non-latex composite material that can be used safely and repeatedly to achieve optimal benefits when compression/support therapy is required.

- It Breathes
- Resists Migration
- Optimizes Hot/Cold Therapy
- Wicks Away Perspiration
- Provides Maximum Compression
- Infinitely Adjustable
- Velcro® Hook Receptive
- Safe, Washable & Durable

Why Will Fabrifoam® Products Work For You?

NEW Additions To 2006 Catalog

Because patients will actually use them!

We have specifically designed our patented products for maximum comfort to assure high patient compliance. Fabrifoam products provide Medical Professionals, coaches and trainers with a wide assortment of superior compression/support therapy tools to treat discomfort related to soft tissue for patients of all ages.

Excellent For Treating and Preventing...

Golfer's Arm, Tennis Elbow and Swimmer's Arm

ElbowGard™

- Provides anatomical conformation and optimal compression support, control and comfort.
- Easy to adjust with gradient pressure for constant support.

Knee Sprains

KneeGard™

- This lightweight device delivers patella support and positioning, as well as allows continued activity without further stress to tender area.
- One size fits most adults without the need of adhesive tape.

Carpal Tunnel Syndrome

CarpalGard™

- Offers support and comfort for wrist pain, wrist strain and arthritis.
- Thin, slip resistant device allows for adjustable compression, and delivers semi-rigid or rigid support (available in sizes for optimal fit).

Ankle Sprains

AnkleGard™

- Slim design provides comfortable wear in most footwear.
- Can be applied directly to skin without the fear of irritation.

See Page XX for additional product information.
