Introducing

Fabrifoam® Rx with Enthera™

Developed By and For...
Medical Professionals

Available only through Medical Professionals, Fabrifoam Products is proud to introduce Fabrifoam Rx, an innovative and exciting line of medical devices, developed by and for Doctors to improve patient outcomes. Specifically designed to treat biomechanical ailments, the Rx line represents an advance in the dynamic treatment of musculoskeletal ailments, injuries and preventive care.

These new Rx devices are created with Fabrifoam Enthera, the newest Fabrifoam therapeutic material. Enthera provides optimal compression and enhanced support. The Rx product designs provide easy application and fit in most footwear. Simple, yet effective, soft-to-the-touch, yet powerful, Fabrifoam Rx devices offer a conservative, non-invasive, cost-efficient path to superior outcomes.

Enthera joins the family of patented Fabrifoam materials, and like all Fabrifoam materials Enthera is:

- Comfortable
- Lightweight
- Durable
- Non-migratory
- Latex-free
- Neoprene-free
- Dermatologically safe
- Breathable
- Hydrophilic
- Velcro receptive
- Infinitely adjustable
- Washable and reusable
